

# Workshop #4

Interactive Calendar

1. Semester June 2009

# Workshop 4 project, 1.Semester

Date: Tuesday 9/6 – Monday 15/6

## **Purpose of project**

- Working with Animation and Actionscript in Flash
- Concept and system development
- Collaboration in a big group

The class in collaboration have to develop a Flashbased calendar that presents the multimediadesign programme at ATS.

Each student has the responsibility for one interactive Daycard that is played when a door/date is opened in the calendar.

**Deadline: the 15/6 at 8.00**

Objectives for the Flashbased calendar are :

- To be entertaining for the target group
- Be uploaded to the internet
- Shall have interactive elements made with Actionscript 3.0

## **Target group:**

Danish class: Potential multimediadesigners

International class: Harry Potter fans

## **Evaluation:**

Each student has to present their Flashcard, the source code (Fla) and the central part of their documentation to the class on Friday.

The Source code and the documentation have to be submitted to It's Learning before the Deadline and will after the deadline be accessible to the class (open source).

The **Documentation** shall contain four pages:

- Page 1: The preconditions for your product (E.g Keywords, requirements from the overall Concept, moods/message)

- Page 2: The Concept of your product (E.g. Sketches/storyboard, description of Gameplay or features)

- Page 3: Description of your Source code (Fla files, filestructure) (E.g. describe how you have structured the Layers, Library, Actionscript, external files with small screen dumps and text)

- Page 4: Reflections

Status of your product in relation to the preconditions and the concept (page 1 and 2) , 3 things you have learned from workshop 4 and 3 questions you like to have the answers for in relation to Flash and Workshop 3 )

**Evaluation criteria:**

- Quality of the individual product and presentation
- Collaboration skills
- Respect of deadlines
- Flash and ActionScript knowledge

The student will get an **extra assignment**, if the workshop 4 isn't approved by the lecture after the evaluation.

## Time plan

### Intro to the project: Concept development/System development

Thursday 4/6 Michael E international class

Wednesday 28/5 Bjarne Danish class

Supervisors: Michael, Niels E and Bjarne

#### Time plan for project week

Tuesday (9-13.30)	Wednesday (9-13.30)	Thursday (9-13.30)	Friday (9-14.30)	<b>Evaluation</b> Monday (9 - 14.30)
9/6	10/6	11/6	12/6	15/6
Room	Room	Room	Room	DK (222): Bjarne
218	218	218	218	Int(218) : Michael
222	222	222	222	
Supervisors:				
Niels E, Michael,	Niels E, Michael,	Michael Bjarne	Michael, Bjarne	

( If you can't find the supervisors the look at the in 202 or send a mail )
